Cappadocia

In a spectacular landscape, entirely sculpted by erosion, the Göreme valley and its surroundings contain rock-hewn sanctuaries that provide unique evidence of Byzantine art in the post-Iconoclastic period. Dwellings, troglodyte villages and underground towns - the remains of a traditional human habitat dating back to the 4th century - can also be seen there.

The great leader of Turkish Independence War and Turkish Revolution and the founder of Turkish Republic Mustafa Kemal Atatürk's life, with full of struggles for Turkish land's freedom and endeavours to raise the Turkish Nation to the level of contemporary civilization, lasted 57 years. It ended on 10 November 1938 and the great leader passed to eternity.
